EXPERIENCE

Creatify – Shopify Freelance Agency

Co-Founder & Lead Shopify Developer

2025 – Present

Multan, Pakistan

- Built and delivered **500+ custom Shopify storefronts** for fashion, beauty, skincare, and DTC brands across Pakistan, UAE, and the USA.
- Executed full-cycle Shopify development: **Liquid templating, Section Schema, CRO-optimized landing pages**, abandon cart flows, social media integrations, and app integrations (Klaviyo, Judge.me, ReCharge).
- Managed complete business operations solo: client acquisition, project scoping, delivery, invoicing, and bookkeeping.

PROJECTS

Zakatly ↗

2025

- Built a **free, open-source Zakat calculator** PWA with Nisab setup on gold or silver basis, multi-currency support (PKR, USD, SAR, AED, GBP, EUR+), and full asset tracking: cash, savings, investments, business inventory, real estate, and liabilities.
- Implemented offline-first architecture, automated CI/CD pipeline, and unit test coverage from day one.
- **Tech Stack:** React, TypeScript, Tailwind CSS, Vite, PWA – Live: zakatly-beta.vercel.app · GitHub: github.com/alibhatti23/zakatly

Finance KPIs Dashboard ↗

2025

- Built a **Power BI + Excel dashboard** tracking revenue, expenses, profit margins, and cash flow with dynamic KPI visualization and period-over-period comparisons. Designed for real SMB use.
- **Tech Stack:** Microsoft Excel, Power BI, DAX – GitHub: github.com/alibhatti23/Finance_KPIs_Dashboard

Budget & Forecasting Model ↗

2025

- Developed an **Excel-based financial planning system** with multi-scenario analysis, budgeting, and multi-period revenue forecasting built for real SMB use.
- **Tech Stack:** Microsoft Excel, Financial Modeling, Scenario Analysis – GitHub: github.com/alibhatti23/Budget-Forecasting-Model

Personal Portfolio Website ↗

2025

- Built a **Hugo-powered static portfolio** deployed on Vercel with global CDN; includes a filterable project gallery, 22 published blog posts, and Fuse.js full-text search.
- Integrated a **Google Gemini AI chatbot** via custom serverless function with streaming SSE, rate limiting, response caching, and a RAG-style system prompt.
- **Tech Stack:** Hugo, JavaScript, HTML5, CSS3, Vercel Serverless, Google Gemini API – Live: alibhatti.online

SKILLS

- **Shopify Development:** Liquid, Section Schema, Metafields, AJAX Cart, Shopify CLI, CRO, App Integration, custom theme

- **Frontend:** HTML5, CSS3, JavaScript, React, TypeScript, Tailwind CSS, Vite, PWA, Responsive Design
- **Finance & Accounting:** Financial Accounting, Cost Accounting, Bookkeeping, Financial Analysis, Budgeting, Pakistan Tax (FBR), Audit Fundamentals
- **Tools & Platforms:** MS Excel, Power BI, Zoho Books, Figma, GitHub, VS Code

ACHIEVEMENTS & CERTIFICATIONS

- Earned the **Affiliate Financial Accountant (AFA)** designation through ICMA Pakistan's CMA pathway after completing 12 papers; now at 17 of 20 toward full CMA certification.
- Published **technical blog posts** on Shopify development, SEO, HTML, Excel, and automation that consistently rank in organic search.
- Delivered Shopify stores for **international brands in the UAE and USA** as a fully self-taught developer with no formal computer science background.
- Founded and operates **Creatify** as a solo Shopify agency while simultaneously pursuing a full-time Accounting & Finance degree at BZU.
